

CRUSHPROOF® TUBING SPECIALTY HOSES

It is our mission at Crushproof® to provide a complete line of exhaust hose solutions for every situation, whether out-the-door, under-floor, or overhead and for every vehicle on the road. So in addition to our original rubber hoses and lightweight overhead hoses we also offer some specialty products that round out our line. If you have an application that seems to require something you can't find here or elsewhere in our line, please contact your distributor or us directly. We are always happy to develop new products and solutions.

DYNO HOSE

Crushproof® Dyno hose is 4" x 11' long and is designed for use with dynamometers and in high performance applications where a crush-proof hose is desired. It will withstand exhaust temperatures of up to 700°F when used with a fan assisted system. There are two special adapters designed out of the same material; the *F475DYNO* and *F350DYNO*. Both adapters come with a hole in them for sensors or probes to be inserted during dyno testing. Also works well in many other applications.

- ACT400DYNO** 4" ID X 11' LENGTH
- F350DYNO** ROUND 3.5" ADAPTER
- F475DYNO** OVAL 3" X 6" ADAPTER

ACT400DYNO

SUPERFLEX HOSE

Crushproof® SuperFlex hose has an accordin-like design that prevents kinking on tight bends and is great for overhead applications. Our standard adapters will not fit this hose well due to the tight convolution spacing.

- 40-20SF** 4" ID X 12' LENGTH
- 50-20SF** 5" ID X 8' LENGTH

SUPERFLEX

YA4475D

Crushproof® developed the Y4475D as an oversized adapter designed to fit twin tailpipe assemblies that are too large for a traditional adapter. This includes most 2008 and newer Ford® diesel models. It is NOT approved for regeneration cycles. We do have hoses for that purpose in our high-temp fabric and wire line.

- 40-20** 4" ID X 20' LENGTH
- 50-20** 5" ID X 20' LENGTH
